

ASTM Standards and Engineering Digital Library (SEDL)

The SEDL is a vast collection of industry-leading standards and technical engineering information created by the world's top technical experts and business professionals representing 135 countries.

It covers a broad range of engineering disciplines, including aerospace, biomedical, chemical, civil, environmental, geological, health and safety, industrial, materials science, mechanical, nuclear, petroleum, soil science, and solar engineering. With the SEDL you will have access to over 80 years of ASTM information.

Standards

- All 13,000+ active ASTM standards
- Approximately 45% are test methods which are supported by scientific and statistical studies.
- Available in both PDF and HTML formats
- 28,500 historical standards & 1,000 withdrawn standards
- 12,300 redlines – shows the comparison between versions of standards

8 Journals

- 100,000+ pages – all articles peer reviewed
 1. Advances in Civil Engineering Materials
 2. Materials Performance and Characterisation
 3. Geotechnical Testing Journal (GTJ)
 4. Journal of Testing and Evaluation (JTE)
 5. Journal of ASTM International (JAI)
 6. Journal of Cement, Concrete and Aggregates (CCA)
 7. Journal of Composites Technology and Research (JCTR)
 8. Journal of Forensic Sciences (JOFS)
- GTJ & JTE are both included in Thomson Reuters Web of Science

Books - Selected Technical Papers (STP's)

- The latest engineering research from ASTM Symposia
- 29,000 papers - all peer reviewed
- Published in book format
- 1,500+ books : 382,136 pages
- 1931 – today

Books - Manuals, Monographs and Data Series

- Practical, hands-on application information (manuals) or advanced and highly technical information (monographs) from highly-regarded experts in their respective fields
- 114 volumes : 22,677 pages
- 1965 – 2010

Videos

- High quality digital videos showing demonstrations of test method procedures, apparatus setup, materials and preparation of specimens
- Embedded in the HTML version of the standards & streamed directly onto the page. Can be expanded to fit entire screen

Other Key Information

- No concurrent user or download restrictions
- Online usage statistics (Counter compliant)
- MARC records available through OCLC
- DOI reference linking via CrossRef
- Powerful searching tools & easy browsing structure
- Papers in PDF with full text search of all documents
- Compliant with various discovery services including:
 - ProQuest Serial Solutions Summon Service
 - EBSCO Discovery Service (EDS)
 - OCLC WorldCat
 - TDNet
 - ExLibris Primo Central
